

France Galop Rule change concerning treatments

France Galop have made some rule changes which came into effect on March 1st, 2023, which they have translated into English for dissemination to EMHF members, as follows:

- Intra-articular injections containing a glucocorticoid substance are banned on all youngstock until January 1st of their 2 years of age
- No horse can start in a race if they have received a treatment containing IMIDOCARB in the 8 full clear days before the day of the race

The full text can be found in France Galop's Code des Courses au Galop 2023 as points **k)** and **m)** of section V article 85.
